Currently at Ather Energy, I collaborate with cross-functional teams to deliver innovative solutions that enhance Ather's digital presence. I manage and execute key projects, guaranteeing that each deliverable reflects Ather's commitment to excellence.

Key projects include: Ather Home Page • Ather 450X Page • Ather 450S Page • Ather 450 Page • Ather Apex Page • Ather Compare Models Page • Ather Rizta Page • Ather Battery Protect Page • Ather Locate Us Page • Ather Dealer Page • Ather Test Ride Page • Ather Booking Page • Investor Relation Page • Ather Campaign Page

4MONKS CONSULTING • FULL-TIME

Frontend Developer

Oct 2023 - Present

At 4Monks, I focus on frontend development, crafting robust and scalable solutions. I've contributed to projects like Origin and KGEN, ensuring a seamless user experience and flawless functionality across all aspects.

Key projects include: Origin • KGEN • KNMA • Mankind Pharma

PERMISSIONLESS • FULL-TIME

Lead Frontend Developer

Jul 2022 - Oct 2023

At Permissionless, I developed high-performance applications using Next.js, Tailwind CSS, and TypeScript. Leading a team of four, I refactored legacy code, built reusable UI components, and ensured a top-notch user experience. I integrated Web3 features, payment systems like Stripe, and developed a robust backend with Hasura GraphQL and PostgreSQL. Working closely with designers, I provided technical insights and drove the adoption of new technologies to improve development efficiency and resolve technical challenges.
